DUTCH BULBS

REMEMBER THESE POINTS WHEN YOU BUY TULIPS, HYACINTHS, Etc.

- I. Not all Tulips are of uniform quality and size. There are "firsts", "seconds", and "thirds". We only ship one kind of Tulips, namely, **FIRST SIZE, SUITABLE FOR FORCING**, or any other purposes. Our Hyacinths, equally of superior quality, and up to size represented, are grown for us by the most reliable Holland concerns.
- II. All our bulbs are shipped F. O. B. our warehouse, New York or Chicago. **THERE ARE ABSOLUTELY NO EXTRA CHARGES.** We pay for import duties, ocean freight, packing and cases.
- III. Because of poor business conditions in Europe, prices for Tulips, and especially Hyacinths, are at their lowest. It is advisable to place your orders immediately, as present conditions indicate that there is no surplus of Dutch Bulbs. Prices cannot drop lower, but might rise before the season is over.

TULIPS

MERCHANDISING TULIP BULBS TO YOUR HOME TRADE

DARWIN TULIPS are this year, as will be noted, very reasonable in price and florists can, we believe, realize a handsome profit in the merchandising of bulbs to customers for their home gardens. We have numerous clients who find this a most profitable adjunct to their business. A circular mailed now to your list of flower buyers describing the beauty and pleasure of a bed or border of Darwin Tulips next Spring will undoubtedly bring results that will not only prove profitable as well as a wonderful stimulant for your business at large when same come into flower.

Darwins are the all-purpose Tulips, splendid for forcing, desirable for cutting, and essential for giving a touch of beauty to your Spring surroundings.

Types of Darwin Tulips

You may have the benefit of our low prices per thousand bulbs, by ordering 250 of a variety. We cannot fill orders for less than 25 bulbs of a variety.

DARWIN TULIPS

The Tulips of today and the Tulips of tomorrow. "Darwins" flower later than the other Tulips, and are at their best during the latter part of May. Quite a few varieties are excellent forcers and are just ideal to grow for Easter.

FREESIA "GOLDEN DAFFODIL"

THE MOST PROFITABLE FREESIA FOR FLORISTS

Part of Field of Two Million Bulbs of Golden Daffodil Freesias in Bloom April 9 at Oceanside, Cal.

Freesia Golden Daffodil was introduced by the American Bulb Company four years ago, and has proved to be the best commercial Freesia during that time. Since prices are much lower, there is no reason why any other colored Freesia should be grown. In fact Golden Daffodil has to a large extent replaced Purity.

All our bulbs of Freesia Golden Daffodil are outdoor grown, produced in Southern California. These are greatly superior to greenhouse grown bulbs which have been forced, and vitality exhausted. Be sure you buy "OUTDOOR" grown bulbs, and get the best results.

Freesias may be grown successfully in boxes, raised benches, or pots. To those unfamiliar with their culture, we will gladly send instructions on request.

NARCISSUS

TEXAS-GROWN NARCISSUS BULBS LEAD THEM ALL FOR EARLY BLOOMING

110 acres in the leading commercial varieties: King Alfred, Sir Watkin, Henry Ford (Improved Emperor), Laurens Koster, Horace and Grand Soleil d'Or—and 10 million Paper Whites. Our Paper Whites are equally good as the French-grown (flowers above the foliage). You can plant early or late and obtain the same good results. Our season has been exceptionally fine. Our prices are very much reduced. Paper Whites and Soleil d'Or are very profitable.

We call your particular attention to our Paper Whites grown in Texas. They are equal to the French (flowers above the foliage, no grass). As Mr. Bernard stated, who was here from France (having more than forty years' experience in the growing and handling of French Narcissi), in order to grow good Paper Whites you must have one season's growth. Our climate in northeastern Texas is adapted for the culture of Paper Whites. We have cool autumns, slight snow in the wintertime, as in southern France, and we have a long spring of good growing weather, which gives us that one season's growth. Since growing Paper Whites in Texas we have delivered up to ten million without one complaint.

Every case is marked "Texas-grown," so there is no chance of substituting; a government certificate is on every case showing you where they were produced.

Henry Wehrman and Guy French inspect flat of Paper Whites, forced from Texas-grown bulbs.

Reprinted from THE FLORISTS' REVIEW,
December 24, 1931

The result of an unusual achievement in growing was seen last week at the Greenhouses of W. A. Rowe Floral Co., Kirkwood, Mo., where King Alfred Narcissi were already in bloom. The photograph reproduced on this page was taken December 15th and the flowers were on that day on sale in wholesale houses in St. Louis and Chicago.

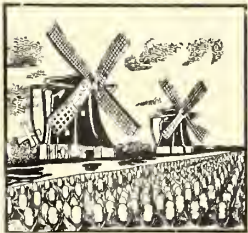

This stock was grown from Texas bulbs shipped to the grower in September from the Chicago warehouses of the American Bulb Co., and this is said to be the earliest known date that King Alfred Narcissi have been brought into flower. It is pointed out that the record contrasts with the record of foreign-grown bulbs, which used to come into flower in February. At the Rowe establishment the growers expected to cut from the entire planting 25,000 bulbs by Christmas time.

The lady in the picture is Miss La Verne Rowe, daughter of the proprietor.
